

A Dream Turns Into Reality

First Phase Completion

I am pleased to announce that the first phase of the project has been completed. You can see from the pictures that the roof is now on the new class rooms. The total cost was approximately \$22,500 and our contribution of \$15,000 made this project possible. The district is now collecting the 2004-2005 contribution of \$15,000 and when we have received the 2005-2006 contribution of an additional \$15,000 we shall then take the \$30,000 down and start work on the dormitory. I shall keep you posted on the progress.
