

Romania

Need for funds for Romanian Orphanages: Child Life International and the Rotary Clubs of Iasi, Romania will interact to feed children in state orphanages in the northern parts of Romania, approximately 25-30 different facilities will be involved. Romania still suffers from the worst drought they have had in years, which put a strain on the government, meaning the children in these facilities will go without unless we intervene. Together, the Rotary Clubs of Iasi, Romania and Child Life International distribute the food commodity to needy children in the state orphanages in Iasi, Botosani and Suceava counties. Please contact Hunger Plus, Inc. if you, your club or your district is interested in contributing to this project.
